healthy pigs!

OPTICARE[®]

PORRIDGE

Opticare Porridge is a luxury liquid pre-starter that complements Opticare Milk. The product is used to train the digestion of piglets from 12 days of age. Opticare Porridge also compensates nutrient deficiencies in case of insufficient milk supply. This is an economically advantageous alternative for achieving optimal piglet performance.

Opticare Porridge features optimal nutritional value. This results in optimal performance for piglets with good feed intake: more piglets weaned to the sow, fewer foster sows required and heavier, healthier and more uniform piglets at weaning.

Stimulate intestinal development

Through an optimal combination of plant components, grain and soybean digestion is optimally trained. This stimulates gut development through better dry matter intake before weaning. The result is a smoother weaning process due to a better connection between milk and dry feed.

Opticare Porridge is a price-competitive product to achieve good piglet performance. With feed cost optimisation, the product contributes to a lower cost price per piglet.

Easily and quickly soluble in water

In Opticare Porridge, high-quality milk products are processed in optimal conditions. As a result, the digestibility of milk protein, fat and lactose remains as high as ever, and the taste characteristics are preserved. Naturally, this leads to improved piglet performance.

Opticare Porridge is easily and quickly soluble (200-250 g/litre) in water (50-55°C). By adding a special acid mix, the pH value remains stable, resulting in a long-lasting, tasty and fresh product.

The product was specially developed for the Swinco Big Litter Concept in which the Opticare Automix cup system is central, but can also be used in other piglet rearing systems with milk cups, round feeding troughs or valve systems.

Specifications:

Crude Protein (%)	16,0
Crude Fat (%)	7,0
Crude Fibre (%)	0,55
Ash (%)	5,5
Lysine (%)	1,25
Calcium (%)	0,6
Phosphor (%)	0,5
Sodium (%)	0,4
Copper (mg)	140
Vit A (IU)	25 000
Vit D (IU)	10 000
Vit E (IU)	300

Code: 94103414
